

Developer Program

Join us now.

Join our ecosystem.

FinTech. Banking. Debit Cards.

Insurance. Persona KYC.

Multi-currency Crypto Wallets.

Loans. Exchange Features.

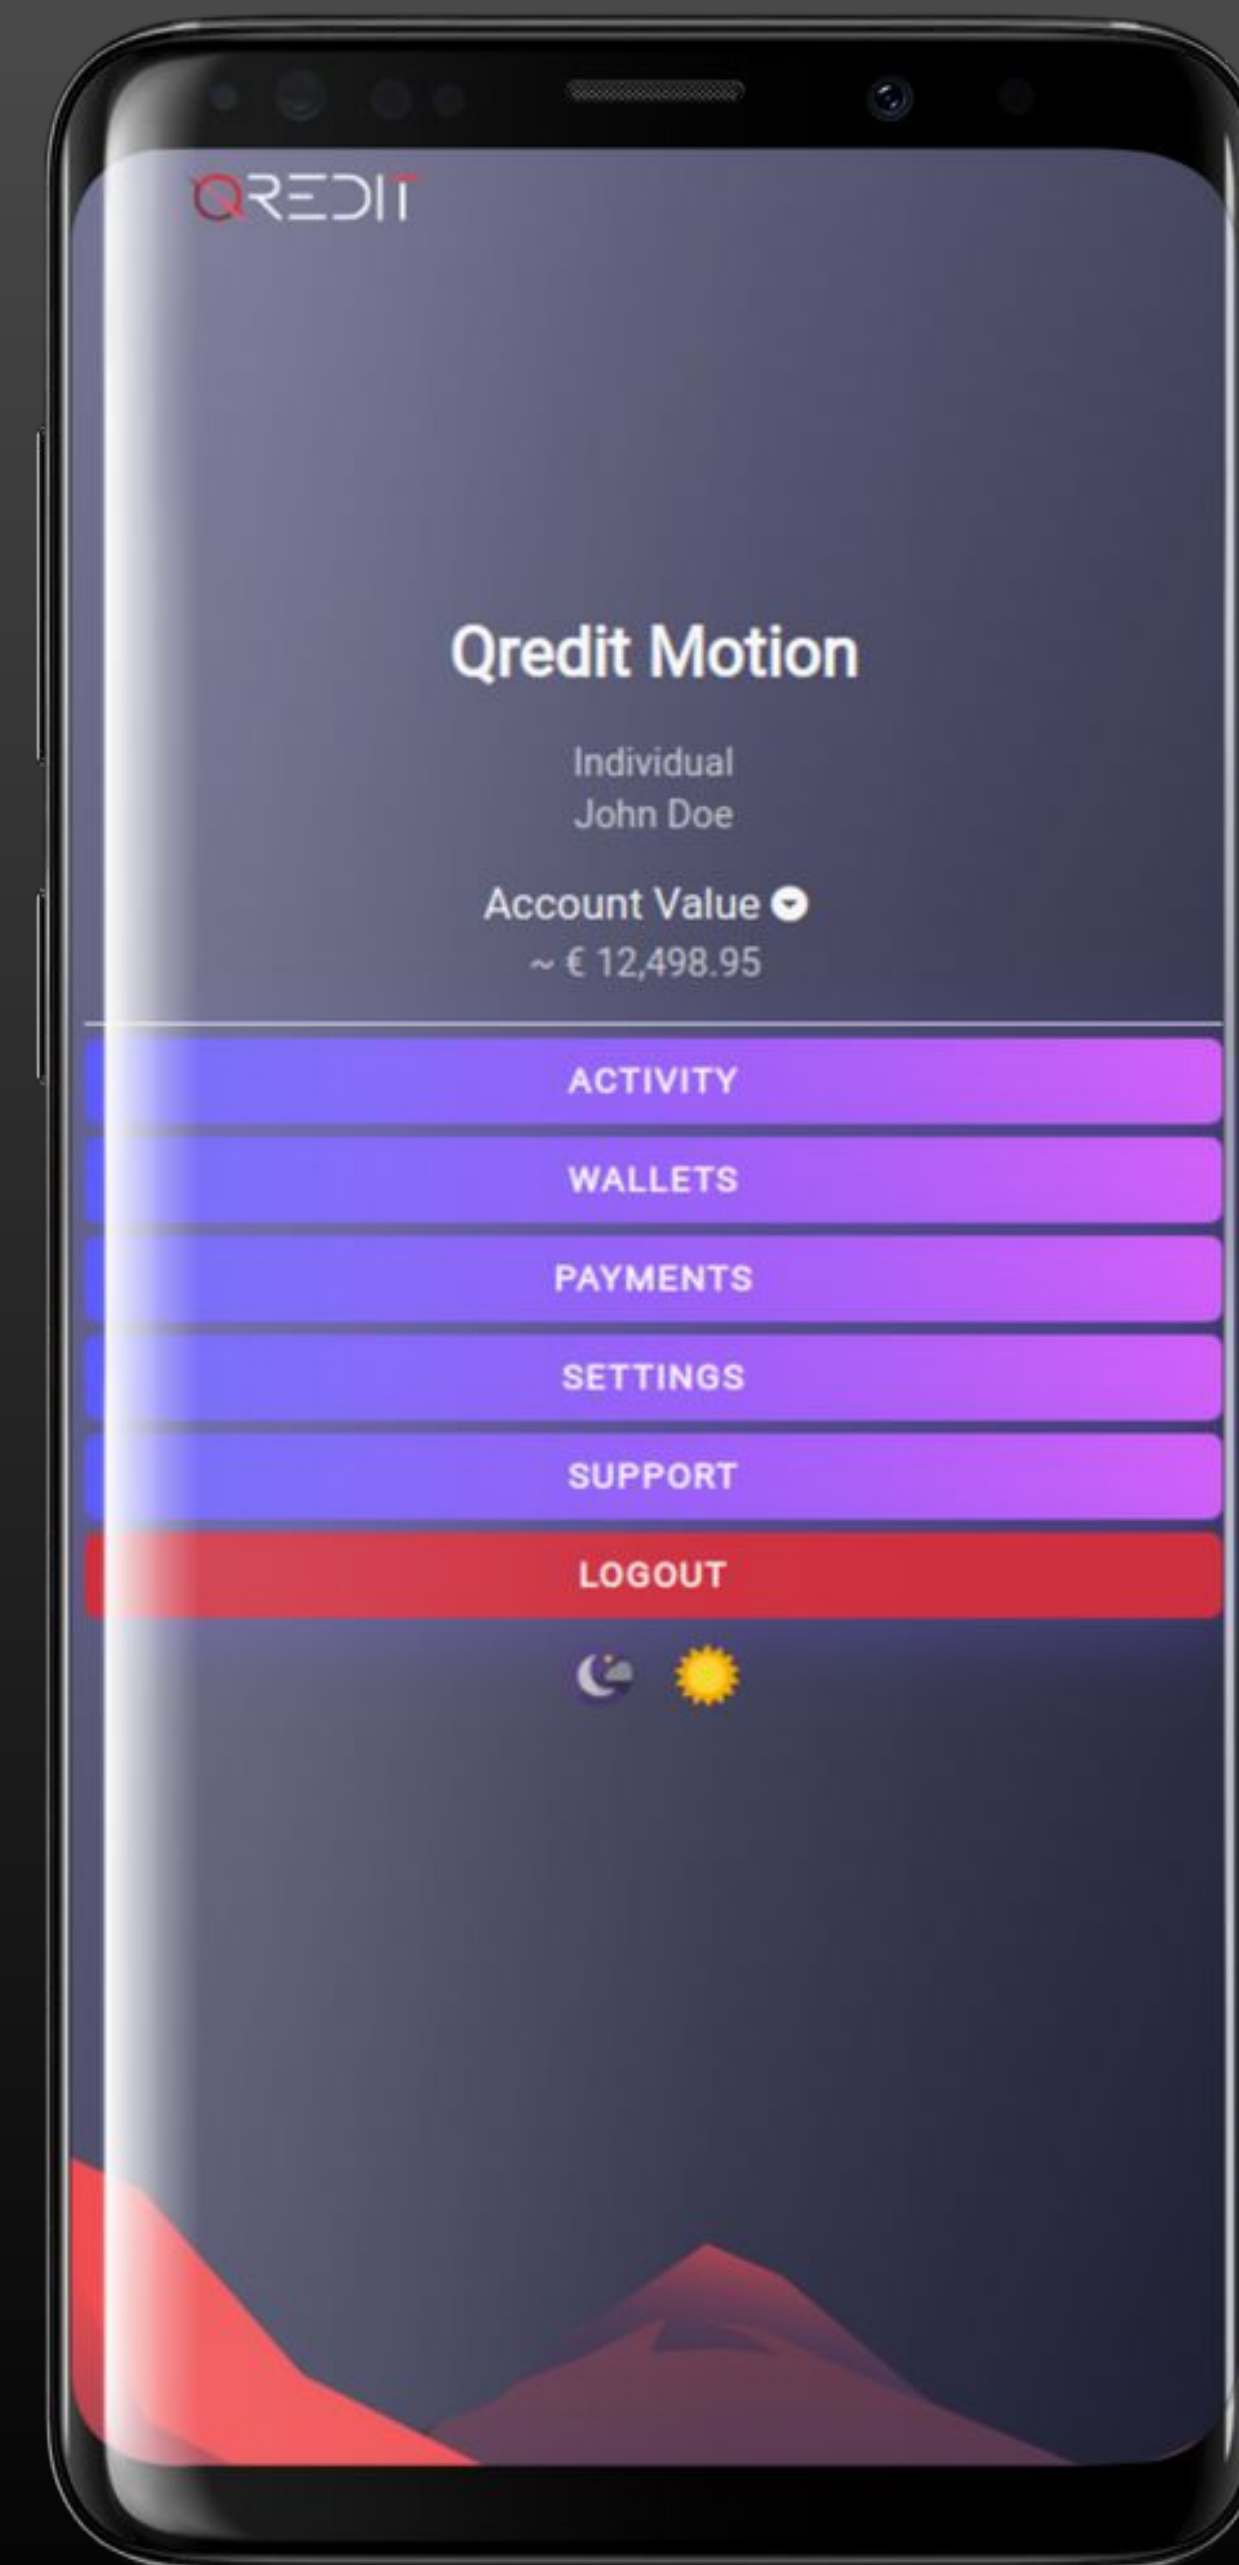

and a lot more.

Qredit LTD is a UK-based company with a subsidiary pending in Estonia, licensed and incorporated by Summer 2021.

Qredit Motion is an all-in-one web, mobile and desktop application, rich in features. Providing tools and functionality found in fintech, digital ID, insurance and crypto applications, but all in one place.

With an open-source code base and our Unified API, other projects can implement their own software, tools, plugins and their own digital assets with hot and cold storage.

Why reinvent the wheel? Join our ecosystem.

Banking.

Paid Subscription.

Enjoy traditional banking features such as IBAN accounts and SEPA transfers.

Additionally we are able to provide customers with virtual and physical debit cards for store/online transactions and ATM withdrawals.

Persona.

Paid Subscription.

Reduce the risk of being a victim of fraud. Persona verifies profiles using a trusted KYC provider. View, comment and rate other people's profiles or use Persona to login on different platforms (single sign-on).

Insurance.

Paid Subscription.

All Qredit Motion users with a paid subscription can apply for medical health insurance. Worldwide.

Qredit Motion will add more options in the insurance industry, such as property, business and vehicle insurances.

Loans.

Paid Subscription.

Get access to instant loans for your business or for your personal expense. Loans are provided directly based the reputation report on your profile. No more paperwork or visiting banks.

Crypto.

Free Subscription.

Multi-currency wallets for fiat and crypto. Qredit Motion users can hold and transfer crypto, internally and externally, safeguarded by hot and cold wallets. Only the user has access to the private key of the cold wallets.

Support.

Paid Subscription.

Our support team will always be available 24/7. Educated in all aspect of crypto and dedicated to provide best in class support to every customer, as and when, they need it.

Qredit Motion

Asset Integration Fee

All Qredit Motion users on the free subscription are able to activate the hot and cold wallet of your asset in the settings menu.

Paid subscriptions can make use of banking and digital ID features, including debit cards, IBAN accounts, Persona and 3rd party services.

With enough liquidity, listing on the Altfenix Exchange will allow Qredit Motion users to exchange and instantly spend crypto at online stores, physical stores and ATM's using their debit card.

Free

Self Integration

Features

Allow Qredit Motion users to store your project's digital asset in hot and cold wallets.

All wallets have the feature to allow users to make internal fiat or crypto transactions to contacts and to external addresses.

€ 2 500

Listing by Qredit

Let us take care of it.

Listing and integration of your project will be executed by the in-house Qredit development team.

Wallet updates and project swaps will be handled by us.
No extra costs.

€ 15 000

Include Altfenix Listing

The premium package.

Your project will be listed on the Altfenix Exchange and listed in the Qredit Motion app by default.

Qredit Motion users can exchange your asset to any other currency and spend your currency directly using their debit cards.

- Branded debit cards can be provided for an additional fee. Contact us for more information.
- The free plan requires projects to provide wallet updates in time to avoid removal from the platform, please refer to our Terms and Conditions..
 - For the premium package. Our support team will be educated to provide the best in class support for your project to our and your users.
 - Pricing is subject to change, advanced notice of any changes will be communicated publicly.

Businesses

Consumers

Individuals

Everyone else.

Our users. Your users.

Together we Grow!

Listing your project will not only allow you to engage with other crypto users. Qredit Motion is focused on advertising its products to users world-wide, including corporate customers.

With the banking, persona and insurance features, Qredit Motion is dedicated to providing a simple, quick and easy onboarding process ensuring people of all technical proficiencies can engage with cryptocurrency.

Your project could join a growing number of projects, increasing awareness and providing a growing, captive customer base.
